Open access statistics

The service at the VZG

## Workshop "Usage Statistics and Beyond"

Marco Recke

22-23 April 2013, Berlin

General information about GBV

The Gemeinsamer Bibliotheksverbund (GBV) is the common library network of the seven German federal states

-public cooperation
-non-profit organization

The GBV head office (VZG) is situated in Göttingen.

Berlin: Foundation of Prussian Cultural Cultural

Marco Recke

www.gbv.de

VZG head office

- The VZG provides the technical infrastructure for more than 450 scientific, research and public libraries.
- Responsible for library auto-mation and the development of new innovative library-specific services.
- Hosting partner in many national and international projects

Marco Recke

OA-Statistics Service

Since 2011 VZG is involved
as a partner of the project
open access statistics 2 (OA-S 2)

In the initial stages of
development, we worked with a
pilot group of repositories for
testing and development purposes.
We hope the service can start in
summer 2013.

What will we offer our Partners?
