IDENTITY STATUSES AS DEVELOPMENTAL TRAJECTORIES: A FIVE-WAVE... (2011) Open access

Save publication

Title	Identity statuses as developmental trajectories: A five-wave longitudinal study in early-to-middle and middle-to-late adolescents
Published in	Journal of Youth and Adolescence, Vol. online first. ISSN 0047-2891.
Author	Meeus, W.H.J.; Schoot, A.G.J. van de; Keijsers, L.G.M.T.; Branje, S.J.T.
Date	2011
Language	English
Type	article
Publisher	Springer
Abstract	This study tested whether Marcia's original identity statuses of achievement, moratorium, early closure (a new label for foreclosure), and diffusion, can be considered identity status trajectories. That is, we examined whether these statuses are distinct and relatively stable, over-time configurations of commitment strength, levels of in-depth exploration of present commitments, and consideration of alternative commitments. The study examined identity development in a five-wave study of 923 early-to-middle (49.3% female) and 390 middle-to-late adolescents (56.7% female), covering the ages of 12–20. Using Latent class growth analysis (LCGA), the authors found that Marcia's (1966) statuses are indeed identity status trajectories. Two kinds of moratorium were also found: the classical moratorium and searching moratorium. Support was found for Waterman's developmental hypothesis of the identity status model: the number of achievers was significantly higher, and the number of diffusions lower, in middle-to-late adolescence than in early-to-middle adolescence. Females were more often in the advanced identity status trajectories, and stable differences were found between the trajectories in psychosocial adjustment. Study findings highlight that identity formation should be conceptualized as an over-time process.

SURFshare

- Organisation
  - Coordination by SURFfoundation, operation by representatives from institutions (BIK: Policy/Innovation, WISH: Implementation Managers, WRM: Repository Managers)
  - End of SURFshare programme

- Current state
  - No perfect implementation of standards → complex services
  - Frequent reharvests, unknown deletes, duplicates
  - Machine use of information: heterogeneous identification and semantics

- Current activities
  - Review standards and secure them at EduStandaard
  - Common harvester for NARCIS, eDepot, NBN-Resolver & intermediate for DRIVER and OpenAIRE
  - Integrating repositories and METIS
  - Enhanced publications, deduplication, author disambiguation
  - Statistics

METIS

- Organization
  - User group, 3-monthly meetings
  - Coordination by SURF, development by UCI Nijmegen
- Current state
  - Common software METIS
  - Local implementations: different workflows, granularity, author-lists, journal-lists, …
  - No consensus on solution
- Current/Recent activities
  - Public tender for new version: expensive
  - New governance structure: little commitment
  - Incidental merging of METIS with repositories

Enhanced Publications

- Organization
  - Initiated by SURFshare
  - Various explorative projects
- Current state
  - Standards for describing aggregations using “OAI-ORE” Resource Maps and semantics
  - Heterogeneous resources, lack of granular identification, lack of durability or responsibility
  - Different levels: embedded enhancements vs metadata enhancements
- Current activities
  - Information In Context

Lessons Learned OpenAIREplus demonstrator

- Confusion on abstract terms
- Disciplines are heterogeneous
- Disciplines share web infrastructure
- Shared information, shared responsibilities

DANS

Lessons for community

- Funders want output deposited
- Organizations want to be acknowledged
- Authors need to be identified
- Enhancements or data citation?
- Disciplines are organizing themselves

Conclusions

- Many opportunities
- Commitment and agreement is the challenge
- Technology is the enabler

Disclaimer: This is an attempt for a more structured approach to integrate research information. Results and conclusions are based on single demonstrators. They should be tested, discussed and adapted for different disciplines and different stakeholders.

Thank you
